

Career

With an Omni Management franchise, you'll provide a range of valuable services in not just one--but as many as three--established and growing industries.

As financial consultants, Omni Management offers premier tax preparation, bookkeeping, and accounting services. Our travel business serves individuals, businesses, and organizations with a multitude of well-executed travel services. Meanwhile, Omni Management franchisees have the additional option of providing money transfer services.

Tax Preparation: A Valued Service in a Vast Industry

Omni Management's tax services fill a growing need for accounting and tax preparation, an industry with a combined annual revenue of \$65 billion. Serving millions of people yearly, this enormous industry holds many opportunities.

There were an estimated 229.3 million tax returns filed in 2006, with more than half of those returns prepared by professionals. Tax preparation firms continue to grow in popularity. There are many factors driving their increased use, not the least of which is the complexity of the tax code.

As an Omni franchisee, you'll be available year round to answer questions and provide support, unlike many of your competitors. Plus, Omni Management tax services include professional audit assistance, something we offer not only to reassure our customers, but also to demonstrate our commitment to serving them fully.

Travel

You needn't sit idle between tax seasons. Clients may also rely on you for top-quality travel arrangements. A recent Travel Industry Association forecast predicts gains in nearly all travel sectors in 2008. Air travel is expected to bring a record-breaking first quarter, especially in international flights. And according to a National Business Travel Association member survey, business travel will continue growing through 2008.

Travel agents play an active role in all of that, managing \$120 billion a year and booking 87 percent of all cruises, 81 percent of all tours and packages, and 51 percent of all airline tickets. By offering travel services, you'll become part of the fun, interesting, and booming travel industry.

Money Transfers

Depending on the needs of your location, you may decide to add money transfers to your franchise's offerings. You'll use our specialized software that shows the most recent exchange rate for many different country's currencies, enabling you to accurately charge customers who are sending money abroad. Should you opt to include this highly useful service in your franchise, you'll join a rapidly growing industry.

Opportunity Knocks

We're seeking franchisee candidates who've "got what it takes" to represent the exceptional Omni Management brand. Please take a moment to review the franchisee selection criteria below to find out whether you qualify for an interview.

Qualifications

Our ideal franchisee candidate will possess acute business savvy and skills, in addition to strong sales and customer service abilities. You should have a solid background in community involvement, be well organized, and show excellent "people skills." Further qualifications include high personal standards of excellence, honesty, and integrity. Former

experience owning your own small business will be considered a plus but is not a requirement.

If you're ready to become master of our own fate operating a multifaceted business, we're eager to talk to you. But you'd better hurry. We'll only be awarding a limited number of franchises in your area. [Click here](#) to learn whether yours can be one of them.
